You can get it from other vendors, but make sure it's the same type as the one you want.

Putting it all together

The Can

Get the Pringles can, and measure 6 inches (152 mm) from the opening, and cut the rest off. Then place the two sponges in the opening, as like in the picture. Then use hot glue to hold the sponges in place.

The Voice/Vibration Module

Pry out the module from the top of the toy. Then glue it to the edge of the can. Then glue the vibration motor between the sponges like in the picture.

Glove

Take a glove, and put it in the entrance. Wrap the rim around the entrance. Then use the paper clips to hold the fingers to the rim.

Usage

Placing it inside Galatea

Insert the construction into the slot in the hips. Make sure the voice module is on the front side. Dispose of the glove after use.

Independent Use

You can also use it on its own. Dispose of the glove after use.
