

Galatea v3.0.3 18+ Add-on Instructions

Adults Only 18+

Construction

Materials

First, you will need a Pringles can, two square sponges, disposable rubber gloves, hot glue, paper clips, and a specific type of sex toy (optional).

The optional sex toy is an egg vibrator with a remote. You can find it by searching up “egg vibrator” on Amazon. If it has multiple bullets, remove one carefully.

Examples below:

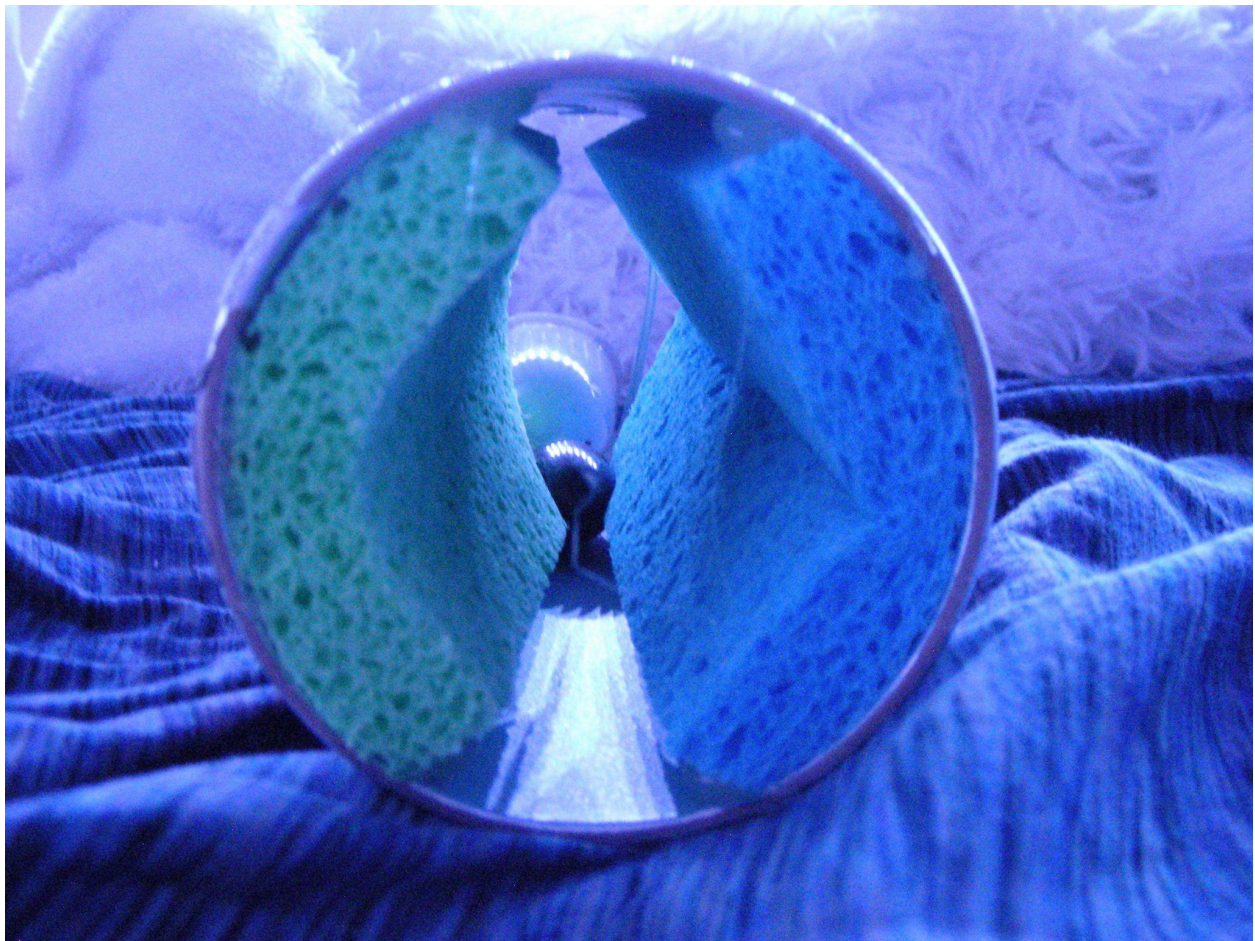

If you want to make your own 18+ Add-on Pleasure Unit for Galatea, it needs to fit within the 76.9mm X 76.9mm X 225mm cylindrical space within the hips and midsection. You can use duct tape to increase the diameter of your personal choice.

Putting it all together

The Can

Get the Pringles can, and measure 6 inches (152 mm) from the opening, and cut the rest off. Then place the two sponges in the opening, as like in the picture. Then use hot glue to hold the sponges in place to the rim. Alternatively, if you want a tighter passage, you can glue the short side of the sponge to the rim.

The Vibration Module (optional)

Reinforce where the cable meets the bullet with hot glue. Then cut out a slit on the side of the can, where two sponges meet, approximately 60 mm from the edge. This will allow the wire to be threaded through it. Glue the bullet to the slit with a liberal amount of hot glue, with the wire facing downwards. Make sure the bullet is touching the sponges.

(Reflections are covered to protect privacy)

Glove

Take a glove, and put it in the entrance. Wrap the rim around the entrance. Then use the paper clips to hold the fingers to the rim on the opposite side.

Usage

Placing it inside Galatea

Insert the construction into the slot in the hips. Make sure the cable slit is on the front side. Dispose of the glove after use.

Independent Use

You can also use it on its own. Dispose of the glove after use.

AI Roleplay

You can use it for AI roleplay. Dispose of the glove after use.

Phone Accessory/Phone

You can play moaning sounds on the phone accessory or your phone, and connect it to the speaker inside Galatea, or another speaker.

Safety

- Stop usage if you feel discomfort
- Stop usage if you notice chafing
- Dispose of the glove immediately after use
- Do not share with others
- Make sure you're not allergic to any material in the glove
- To prevent sensation tolerance, avoid overuse
- Use common sense!
